

Refinish

## **Undercoats Overview**

### **DuPont™ Fill 'N Sand® 131S™ Acrylic Primer-Surfacer**

A fast-drying, easy-to-use acrylic primer-surfacer for spot and small repairs on B/C and S/S finishes.

### **DuPont™ 222S™ Mid-Coat Adhesion Promoter**

A ready-to-spray adhesion promoter for use over OEM clearcoat finishes.

### **DuPont™ Varipime® 615S™/625S™ Self-Etching Primer**

A fast-drying, two-component, self-etching primer with excellent corrosion resistance and direct-to-metal adhesion for spot, panel and overall repairs. Also available in a lead- and chromate-free version.

### **DuPont™ Velvaseal® 1986S™ Acrylic Sealer**

A ready-to-spray acrylic sealer with good holdout and adhesion. It is intended for spot and panel repairs and can also be used over factory primers on replacement parts.

### **DuPont™ Final-Fil™ 2290S™**

A versatile, two-component polyester glazing filler for imperfections over properly prepared surfaces, including body filler, fiberglass, SMC, steel, cured primers and cured finishes.

### **DuPont™ 2510S™/2540S™/2570S™/2580CR™/2590S™ Epoxy DTM Primer/Sealer**

DuPont™ DTM is a two-component, non-isocyanate non-sanding primer with corrosion resistance and excellent adhesion for direct-to-metal applications.

### **DuPont™ Low VOC Prime 'N Seal® 2710S™/2740S™/2770S™**

A three-component, non-sanding primer with corrosion resistance and excellent adhesion for direct-to-metal applications. This lead- and chromate-free primer can be used under body filler, polyester putties, primer-surfacers and topcoats. For spot, panel and overall repairs.

### **DuPont™ 4004S™ 2K UltraProductive Primer-Filler**

Delivers quality topcoat holdout, fast dry, and ease of sanding.

### **DuPont™ 4904S™ 2K UltraProductive Primer-Filler**

A high-build, highly productive 2K spot and panel primer-filler which delivers quality topcoat holdout, fast dry, minimum overspray and ease of sanding.

### **DuPont™ 4910S™/4940S™/4970S™ 2K UltraProductive Primer-Sealer**

A high-performance undercoat designed to provide excellent flow and leveling for spot, panel and overall applications.

### **DuPont™ ChromaSurfacer® 7704S™ Primer-Filler**

DuPont™ ChromaSurfacer® 7704S™ Primer-Filler is a high build 2K Urethane Primer-Filler with a simple 4:1 mix ratio. The primer has excellent hold out and shares activator with DuPont™ ChromaSeal® 7710S™/7740S™/7770S™, ChromaClear® 7779S™, and ChromaClear® HC-7776S™.

Refinish

## **Undercoats Overview**

### **DuPont™ ChromaSeal® 7710S™/7740S™/7770S™ 2K Urethane ValueShade® Sealer**

DuPont™ ChromaSeal® 7710S™/7740S™/7770S™ 2K Urethane ValueShade® Sealer is a two component, high-performance sealer for premium-quality spot, panel and overall repairs. It provides excellent leveling and topcoat holdout with fast flash for productivity. This sealer allows you the option of "finesse" sanding for improved final finish.

### **DuPont™ ChromaPremier® 22860S™ Premier Etch Primer**

ChromaPremier® 22860S™ Etch Primer is a two-component, self-etching primer. It provides excellent corrosion resistance and direct-to-metal adhesion for spot and panel repairs.

### **DuPont™ ChromaPremier® CF-22860S™ Premier Etch Primer**

DuPont™ CF-22860S™ Chrome-Free Etch Primer is a non-sanding acid wash primer designed for quality direct-to-metal repairs. DuPont™ CF-22860S™ Chrome-Free Etch Primer is a two-component, self-etching primer that provides exceptional corrosion resistance and adhesion to properly prepared bare metal (steel, galvanized, and aluminum).

### **DuPont™ ChromaPremier® 32430S™ 2K Premier Primer**

A high build primer-filler designed for spot, panel and overall applications. It provides excellent topcoat holdout and fill in an easy-to-handle primer.

### **DuPont™ ChromaPremier® 42400S™/42410S™/42440S™/42470S™ 2K Premier Sealer**

A high-performance sealer that provides excellent leveling and holdout for spot, panel and overall applications. ChromaPremier® Sealer is a productive option to "finesse" finish sanding.
