Single Stage Topcoats Overview

DuPont™ ChromaPremier® Single Stage

A high-performance urethane single stage with outstanding appearance. This high-build, high-gloss, premium topcoat combines productivity and user-friendliness with toughness and durability. It delivers good flow and leveling, and is designed for spot, panel and overall repairs in a downdraft, force-dry environment.

DuPont™ ChromaOne® Acrylic Urethane Single Stage

Designed as a productive acrylic urethane for spot, panel and overall repairs of OEM single stage finishes, both solids and metallics. ChromaOne® delivers good gloss and DOI. It goes on easily and dries quickly.

DuPont™ MasterTint® Vinyl Color System

DuPont MasterTint® Vinyl Color is a fast drying, ready-to-spray, low gloss flexible coating designed for specialty applications: interior and exterior vinyl and plastic, interior and exterior trim and painting applications, and may also be used as a striping paint.
