Clearcoats Overview

Clearcoats Overview

DuPont™ 1780S™ Iso-Free Clearcoat

DuPont™ 1780S™ Iso-Free Clearcoat is a fast-drying, three-component non-iso clearcoat that offers short flash times and fast dust-free times. DuPont 1780S™ is very productive for spot and panel repairs, including larger, multi-panel jobs.

DuPont™ ChromaClear® 2370S™ Matted Clearcoat

DuPont™ ChromaClear® 2370S™ Matted Clearcoat is a versatile three-component matted urethane clearcoat used to achieve varying degrees of gloss in refinishing of OEM base/clear finishes.

DuPont™ ChromaClear® G2-4500S™ UltraProductive (Multi-Use)

ChromaClear® G2-4500S™ boosts throughput and saves energy with a short force-dry process. It is a three-component multi-repair clear designed to increase production by maximizing vehicle throughput. ChromaClear® G2-4500S™ provides excellent application, appearance, buffability and an extremely fast cure. It is primarily designed for short bake cycles at high temperatures (10 to 15 min. x 160°F), allowing for immediate vehicle delivery on cool down. ChromaClear® G2-4500S™ also dries quickly under air dry conditions (4 hours @ 70°F).

DuPont™ ChromaClear® G2-4700S™ UltraProductive (Hyper Cure™ – Air Dry)

ChromaClear® G2-4700S™ is our fastest air dry/low bake clear with superior energy savings and productivity. It is a three-component multi-repair clear designed to increase production by maximizing energy savings and vehicle throughput. ChromaClear® G2-4700S™ possesses a combination of unique attributes: excellent application, appearance and extremely fast cure. It is specially designed to provide outstanding cure rates under express dry (10 min. x 120°F) and air dry conditions (1.5 h @ 70°F).

DuPont™ ChromaPremier® 72200S™ Productive Clear

DuPont™ ChromaPremier® 72200S™ Productive Clear is a medium solids, three-component urethane clear designed for spot, panel and multi-panel repairs. ChromaPremier® 72200S™ combines outstanding appearance and application properties with rapid booth throughput.

DuPont™ ChromaPremier® 72500S™ Premium Appearance Clear

DuPont™ ChromaPremier® 72500S™ Premium Appearance Clear is a high solids, three-component urethane clear that provides outstanding application properties, unsurpassed appearance, and can be used for panel, multi-panel and overall repairs. ChromaPremier® 72500S™ boosts throughput and saves energy by providing an optional short force-dry process. Can also be air-dried in a downdraft environment.

DuPont™ ChromaClear® 72600S™ Premier Scratch Resistant Clear

DuPont™ ChromaClear® 72600S™ Premier Scratch Resistant Clear is a high-solids, three component urethane clear that delivers unsurpassed appearance, scratch and mar resistance for premium quality panel, multi-panel and overall repairs.
