A-3130S™ UVA Primer-Surfacer Overview

A-3130S™ UVA Primer-Surfacer

DuPont™ A-3130S™ UVA Primer-Surfacer was developed for ultra fast spot repair processes. A-3130S™ can be applied direct to metal with a very smooth surface and it dries quickly under low intensity UV lamps. The entire coating is fully cured on exposure and it can be sanded immediately on cooling. Several steps are reduced or eliminated with these advancements. The result is a UV primer with application and handling characteristics well suited to the needs of the collision repair technician.

DuPont™ Surface Klean™ A-3970S™ & A-3990S™ Multi-Purpose Aerosol Surface Cleaners
Multi-Purpose aerosol surface cleaners that leave no surface residue.

DuPont™ A-4114S™ & A-4115S™ Self-Etching Primer.

An easy to use 1K ready-to-spray Chrome-free etching primer with anti-corrosive pigments designed to provide excellent adhesion and corrosion protection to most properly prepared metal substrates.

DuPont A-4119S™ Etch Primer

DuPont™ 4119S™ Etch Primer was developed to repair small cut throughs to bare metal incurred during vehicle pre-paint prep. A-4119S™ is black in color and can be applied direct to metal with a minimum of overspray. This primer has improved application and performance versus similar products of this type.

DuPont™ QuickPrime™ A-4220S™/A-4240S™/A-4260S™ 1K Primer-Filler

An easy to use ready-to-spray aerosol primer in three ValueShade® colors. DuPont™ QuickPrime™ is designed to provide good fill capacity, adhesion to the recommended substrates, and performance with an aerosol delivery. This aerosol primer is intended for small areas and spot repair panel application which require limited spot prime application.

DuPont™ A-5099S™ Satin Black

A fast drying, general purpose 1K Satin Bumper & Trim Black ideal for detail refinishing spot repairs and designed to match most OEM bumper and trim moldings.

DuPont™ A-7480S™ Acrylic Trim & Jamb Clear

An easy-to-use ready-to-spray clear designed for small spot repairs (interior door jambs, small parts, etc.). Designed to be versatile and have excellent application and appearance, it offers convenience and the ability to be used over DuPont™ ChromaBase® Topcoats.

The miracles of science™
